3. On Project fwd the date of fwd will updated in (ProjStakeHolderMov table in DateTimeOfUpdate field)

The screenshot shows a modal window titled "My Click Doctor Fwd" with a close button in the top right corner. Below the title bar is a blue header with the text "Pl select appropriate details Before Dispatch of Project to Next Stakeholder". The form contains several input fields: "Stage" (Pre Devp Stage), "Sub Stage" (Auto Committee), "Action" (Forwarding), "Fwd To" (DGIS), "Remarks" (afasdf), and "Date of Fwd:" (20-01-2025). A red circular button with a white 'x' is located to the right of the "Date of Fwd:" field. At the bottom center of the modal is a blue button labeled "Send & Att Docu (0)".

4. On Project comment the date is taking from DatePicker and the Current Server time is taking :

The screenshot shows the "Add Comments" modal form within the "Portal for Appl Whitelisting (PAW)" interface. The modal has a blue header with the title "Add Comments" and a close button. Below the header is a section titled "Add Comments for Project" with a "Comment *" text area. Below the text area is a "Status *" dropdown menu with a "-Select-" option. Below the status menu is a "Date of Post:" label followed by a date picker showing "dd / mm / yyyy". Below the date picker is an "Upload PDF" section with a "Browse..." button and the text "No file selected.". At the bottom of the modal is a blue "Send" button. To the right of the modal is a "Comments With Status" section showing a list of comments. The first comment is "DDGIT (LI Col manish / ddgit)" with a timestamp "25/01/2025 16:14:24" and a status "test". A red arrow points to the timestamp. The background shows the PAW portal interface with a sidebar menu and a top navigation bar.

5. **Project History** on PsmId now it was earlier on TimeStamp (Sequence is coming fine tested on staging and Adn network) :
