(a)	<b><u>Automated AI Proctoring Sw</u></b>  (i) <b><u>Purpose.</u></b>  (aa) AI based online invigilation is in practice for various exams worldwide. It is proposed that an 'Automated AI Enabled Proctoring Sw' be devp for IA by DGIS which will use the high speed NFS for conduct of all online exams. Initial test bedding can be carried out for internal exams of Cat A/ Trg Ests with lesser No of candidates in a localised envt before expanding to other exams in a Ph manner.  (ab) Online Proctoring will accrue fwg advantages :- (aaa) Accessibility. (aab) Adm arngs. (aac) Scheduling. (aad) Recording.  (ii) <b><u>Type of Sw.</u></b> Bespoke. (iii) <b><u>Cost.</u></b> NA (in house devp). (iv) <b><u>Dply Scenario.</u></b> ADN.	(i) The committee noted that Proctoring Sw is available as COTS product and is in widespread use in the country. Putting own devp resources on a readily available and tested Sw may entail delay and be inefficient. The committee dir the sponsor to process the case on file for comments by stakeholders incl tech scan by ASDC.  (ii) Chairman SAC advised the sponsor to undertake the dply of Sw in a ph manner and carry out PoC in CTLs at fmns & local LAN of trg est, prior to hosting on ADN.  (iii) Proposal to be discussed again in SAC post submission of further details incl cost.	<b>HQ ARTRAC (Exam Sec)</b>

(d)	<p><b><u>Abhimanyu 4.0</u></b></p> <p>(i) <b><u>Purpose.</u></b> Several apps and social media platforms avbl on smartphones are being used by our adversaries and PIOs to subvert IA pers. Hence, there was a felt need to devp a comprehensive package to mitigate android related vulnerabilities and take measures against PIO Appl &amp; calls to secure our pers against a sustained IW Campaign of our adversaries. The proposal is to create a centralised cyber help desk appl for auto scanning and cyber hardening of mob phones. It will be a desktop based appl proposed to be devp in-house for scanning vulnerabilities and hardening android based smartphones. The appl is designed to run on a standalone sys, PC/Kiosk and smartphones shall be connected to it over USB cable for scanning &amp; analysis. It will be capb of performing deep scan to check for presence of any malware, undesirable settings &amp; dangerous permissions allowed to various apps. It will also harden the smartphones based on CIS (Centre for Internet Security) benchmark.</p> <p>(ii) <b><u>Type of Sw.</u></b> Customized.</p> <p>(iii) <b><u>Cost.</u></b> Nil.</p> <p>(iv) <b><u>Dply Scenario.</u></b> Standalone.</p>	<p>The committee info the sponsor about a similar appl devp by MCTE, Mhow already whitelisted during 47<sup>th</sup> SAC mtg. This would be possible only if the tech is studied in depth and expl for devp of 5G use cases for Def. 'Soldier Situational Awareness Sys' presents a transformative shift in mil ops by harnessing 5G's high bandwidth and low latency. It can seamlessly integrate data from numerous sensors and svl devices, empowering cdrs with real-time, comprehensive situational awareness. Est a dedicated 'Soldier Situational Awareness Sys' not only enhances battlefield capb but also serves as a cornerstone for an expensive research ecosystem, fostering the devp of diverse 5G-driven mil appls and services.</p> <p>(ii) <b><u>Type of Sw.</u></b> To be ascertained by the sponsor.</p> <p>(iii) <b><u>Cost.</u></b> ₹ 93,46,662/-.</p> <p>(iv) <b><u>Dply Scenario.</u></b> To be ascertained by the sponsor.</p>	<p>The Chairman dir the sponsor to process the case on file with price discovery mechanism, cost breakdown and iden use cases, for comments by stakeholders.</p>	<p><b>FCE, MCTE, Mhow</b></p>

(j)	<p><b><u>Fmn Eqpt Op State Parameters</u></b></p> <p>(i) <b><u>Background.</u></b> MISO captures data of Manpower, Eqpt &amp; Tpt in its PSG, MMS &amp; TMS Module of the appl. This data is fed by the units in various colns such as Eqpt Serviceability, Vintage, Engine hrs run, Kms done etc. These fds may be utilised to indicate various Eqpt parameters which is a subset of Fmn Op Readiness State. Op Readiness State remains specific to the Fmn Op role &amp; tasks. Thus there is a reqmt for specifying parameters for capturing Fmn Op State aspects based on MISO data fd colns.</p> <p>(ii) <b><u>Purpose.</u></b> To provide a single window view to Cdrs &amp; SOs to view &amp; analyse Eqpt Parameters and Op State.</p> <p>(iii) <b><u>Proposal.</u></b> To expl the data fds captured in MISO through a Op State Dashboard, there is a need for nominating the parameters ascertained for calculating Op State.</p>	<p>(i) Committee granted IPA for the devp of Dashboard in MISO 4.0.</p> <p>(ii) The committee dir the invitees from Line Dtes to provide the sponsor with necessary dte specific data fields and plg parameters for incl in the dashboard.</p>	<p><b>MISO/ DGIS</b></p> <p><b><u>Invitees</u></b></p> <p><b>Reps from</b>  <b>DG Inf,</b>  <b>DG Arty</b>  <b>DG AAD</b>  <b>DG Mech</b>  <b>DG Armd</b>  <b>DG Sigs</b>  <b>DG EME</b>  <b>E-in-C Br</b></p>
(k)	<p><b><u>Face Recog Sw.</u></b></p> <p>(i) <b><u>Proposal.</u></b> Service Pers are not allowed to take part in demonstrations and protests. Exsm have a resp towards the nation even after retirement and hence should not participate in politically motivated protests. However, it has been observed that, in recent past, service pers and exsm have been found to be indulging in protests. This leads to avoidable embarrassment as it comes under adverse obsn of media. A face recog Sw of Confd CI is proposed to be devp for iden of indls participating in the protests. The software will be devp by DGIS and be of CONFD CI &amp; uploaded on webpage of DGMI on Army Portal.</p> <p>(ii) <b><u>Type of Sw.</u></b> Bespoke.</p> <p>(iii) <b><u>Cost.</u></b> In-House Devp</p> <p>(iv) <b><u>Dply Scenario.</u></b> ADN.</p>	<p>(i) The sponsor was informed about a similar appl 'xFACE' devp by MCTE, Mhow, which was granted IPA in 47<sup>th</sup> SAC conducted on 16 Feb 24.</p> <p>(ii) The appl was granted IPA for devp in coord with ASDC. (p)	<p><b><u>Digitisation of Def Land Records of Delhi Area.</u></b></p> <p>(i) <b><u>Gen.</u></b> Land Br at HQ Delhi Area deals with plethora of cases related to def land. The handling of def land cases often requires the land records be kept handy for ready refs with adequate details of landscapes, bdys, satl photos, actual photos &amp; geo locs under the jurisdiction of HQ Delhi Area.</p> <p>(ii) <b><u>Background.</u></b> The def land in and around Delhi is divided into various zones, sectors &amp; CI and held with various agencies like DEO, Cantt Bd, IAF, IN, SFC &amp; Pvt, apart from HQ Delhi Area. The land being at premium in Delhi, a No of requests are recd for temp and permt tfr of land from various orgs. Apart from that, there are a No of encroachments &amp; NOC violation cases/ court cases involving land title being dealt by Land Br. Reqmt of land for KLP, Md accns, Schools and any other infra devp/ welfare proj has 'Land' as the start pt. However, at Delhi Area the land records are still being maint in files/ manually.</p> <p>(iii) <b><u>Essential Reqmt.</u></b> Over the years, with the digitisation of records at DEO, DGDE &amp; even MoD (Lands) level, the time frame to comment on any request of land has shortened considerably. Presently the est is dependent on the human knowledge acquired on the job by land br functionaries, there is a scope of subjectivity creeping in and after every three yrs. Therefore to avoid subjectivity &amp; to create a threshold knowledge bank, it is prudent that digitisation of land records &amp; policies be undertaken on priority.</p> <p>(iv) <b><u>Devp of Appl for Digitisation.</u></b> Land digitisation would entail the process of converting traditional land records, maps and info related to land into digital forms. This transformation involves devp appl to create, manage and store land related data in digitised form. Hence, it is proposed that assistance of DGIS be provided for devp the appl for digitisation of Def Land Records of Delhi Area.</p>	The committee granted IPA for the devp of the Sw. The sponsor was also advised to follow the guidelines of SoP on Whitelisting of Appls Sw in IA.'	<b>HQ Delhi Area</b>

(q)	<p><b><u>Update on Enterprise IA Secure Access Card (eIASAC)</u></b></p> <p>(i) <b><u>Proposal.</u></b> eIASAC is a tri-services proj to replace existing paper based I-Cards with chip embedded smart card. Initial issue of eIASAC to all IA serving pers would necessitate particulars of all serving pers (Oftrs, JCOs &amp; OR) to be collected duly auth by competent auth as applicable through ibid proposed bespoke Sw.</p> <p>(ii) The proposal was discussed during <b>46<sup>th</sup> SAC mtg</b> held on <b>30 Jan 24</b> and Committee gtd IPA for devp of Sw appl. Subsequently, file for hiring of six coders for devp of Sw appl has been processed to IFA for concurrence. The file has been returned by IFA with comments to clarify the fin outgo for the subject hiring.</p> <p>(iii) The proj for hiring of six coders for eIASAC devp and dply has been incl in IT PPP 2024-25 at Ser No 159. The hiring is inescapable to ensure timely devp of appl. It is proposed that apvl of SAC be gtd for hiring of six coders for devp and dply of eIASAC for one yr at the cost of ₹ 51.50 Lacs.</p>	The committee was briefed on the agenda by sponsor. The committee granted IPA for hiring of six coders for devp and dply of eIASAC for one yr at the cost of ₹ 51.50 Lacs.	ASDC
(r)	<p><b><u>Freq of EAC Mtg.</u></b> VCOAS directed that the EAC should meet <b>once a month</b> to synergise auto initiatives at the strat level and enable faster absorption of niche tech in the IA, aligned with the '<b>IA Theme of Yr 2024 : Yr of Tech Absorption</b>'.</p>	The committee was briefed on the dirns of the VCOAS. The committee recom the same to be incl in the next OAC mtg for info of all stakeholders.	DGIS
