<u>CO,</u> <u>IHQ of</u> <u>MoD</u> <u>(Army)</u> <u>Int Bn</u>	<p style="text-align: center;"><u>1</u></p> <p>1. Ref SOP on Whitelisting of Appl Software (SW) in IA issued vide DDG IT letter No B/04001/Policy/Whitelisting SOP/DDGIT (T&P) dt 19 Jul 2022.</p> <p>2. <u>Intro.</u> The IA is facing ever evolving counter Int threats wherein Pak Int Operatives (PIOs) continue to expl the latest tech & ever-changing modus operandi to tgt IA pers & their families. Inimical efforts at targeting security pers using social media (SM) & Instant Messaging (IM) platforms have witnessed a substantial incr in the recent past.</p> <p>3. At present, there is no appl which can be used to iden, report, verify & compile PIO Nos/ SM accts in an easily accessible web interface across IA. In order to address this constraint & to counter PIO threat, '<u>WISER</u>' (Web Interface for Searching En int opr Records), a web-based appl, has been devp in-house by IHQ of MoD (Army) Int Bn.</p> <p>4. The appl aims to digitize and provide a pan army interface hosted on ADN for searching and submitting suspicious mob Nos or SM accts targeting serving pers. It also ensures timely initiation of n/a at the user end and also provides leads to the auth agency for further inv.</p> <p>5. <u>Features.</u> The appl has u/m functionality :-</p> <p>(a) In the first ph, provn to search suspicious mob Nos from a periodically upt database & ascertain whether the same is being op by inimical agencies has been devp. The search results incl PIO Name, mob No op by PIO & Status (Verified / Unverified).</p> <p>(b) In case the search query yields no results/ records, indl is prompted to anonymously add & submit UI mob Nos to WISER which will further be verified and added to the database by auth agency, i.e IHQ of MoD (Army) Int Bn.</p> <p>(c) In the second ph, provn to search & add SM accts/ profiles of PIOs is envisioned to be incl.</p>	<u>Flag 1A</u>
