

## Today Work: 27/12/2024

1. On add new project the Initiation Date and Completion Date issue resolved.  
=> Completion date will be forward from Initiation date.
  - ⇒ Time removed from calender now only date will select from calender.
  - ⇒ On inbox and Sent only date will show instead of DateTime.
2. On project the sweet alert message is closing very fast within millisecond : **fixed**
3. Pullback work :
  - ⇒ On Project Movement the stakeholder name is coming wrong for pullback project : **fixed**.
  - ⇒ On Pullback the popup message is fixed : Enter pull back : "Project Name"
  - ⇒ The pull back remarks is saving in **Remarks** column of ProjStakeHolderMov.
  - ⇒ On Project Movement the pull back remarks is coming from "**Remarks**" column itself now.
  - ⇒ Notification count in fixed on Receiver side and Sender side on pull back.
4. For New project which is Added by StackHolder(DDGIT, ASDC, AHCC, ACG) :  
=> In inbox project history the comment is coming by duplicated: **Fixed** , After reviewed by Kapoor sir, The approach is not correct, and told me It will take time to fix this issue.
  - ⇒ The duplicate record is coming on Project Movement: **Fixed**
5. On add project comment the popup alignment required : **Fixed**
6. Database normalization impact on code fixed for database model.
7. Database normalization test with Project flow.
