Sheet No: 07

Subject: Whitelisting of VIKALP (Vital Inventory Keeping And Logistics Portal) for hosting on ADN

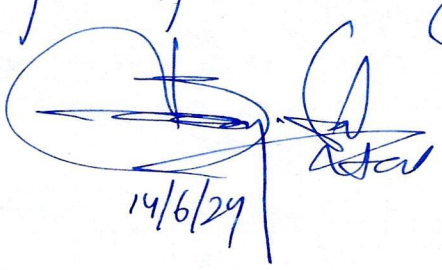

Appt	Content	Ref
<u>GSO-1, ASDC</u>	<p style="text-align: center;"><u>1</u></p> <p>1. PI ref DDG IT, Dte Gen Info sys letter No B/04001/Policy/Whitelisting SOP/DDGIT (T&P) dt 19 Jul 2022.</p> <p>2. <u>Introduction.</u> Integrated Quartermaster Package (IQMP) is local LAN based web appl, dply by IA units to automate the entire business process/ functions of 'Q' branch. The IQMP was developed during the year 2013 to 2016 by M/S TCS under the aegis of Army Software Development Centre. Based on the latest technology avbl at that time and network limitations, IQMP was devp as a LAN based web appl on Dot Framework 4.0 architecture.</p> <p>3. <u>Need for Upgradation.</u> With the proliferation of unified ADN on NFS and obsolescence of IQMP tech stack, there is a reqmt to upgrade it's technical stack including the incorporation of new features based on user feedback.</p> <p>4. <u>Justification.</u> In order to provide a centralised web based software solution to automate the critical functions of 'Q' branch and logistics mgt for all IA units, it is proposed that based on the business logic of IQMP, an enterprise level logistics management appl (VIKALP) for IA, to be developed (in house) on latest tech stack for utilisation by units/ formations/establishments on ADN. VIKALP (Vital Inventory Keeping And Logistics Portal) will include Ration Module, MT Module, Clothing Module, Ordnance Module, Arms Module, Amn Module, FOL Module and Audit Module to automate the routine functioning and logistics management in all the IA units.</p> <p>5. <u>Technical Overview.</u> The architecture of the web appl VIKALP (Vital Inventory Keeping And Logistics Portal) is simple and robust. The appl runs on Tomcat web server & PostgreSQL Database at the back-end with Java, HTML & CSS at the front-end. The appl will be integrated with IAM for access control.</p> <p>6. <u>Proposal for Approval.</u> In light of the above points, it is proposed that the VIKALP (Vital Inventory Keeping And Logistics Portal) be granted In-principle approval for whitelisting on the ADN. This approval is sought as part of the pre-approval stage of software deployment, following the Standard for Software Development as stipulated in the DGIS policy.</p> <p>7. Apropos, there is a requirement of <u>In-principle approval</u> from the appropriate automation committee for whitelisting.</p> <p>8. The fwg docus are fwd for whitelisting of proposed web application as per policy u/r -</p> <p>(a) Statement of Case (Flag A).</p> <p>(b) Check List for Pre-Apvl Stg (Flag B).</p> <p>9. Fwd for necessary approval pl.</p> <div style="text-align: right;">  (Ashish Tomar) Maj GSO-1 13 Jun 2024 </div>	<p><u>PUC</u></p> <p><u>Flag 'A'</u></p> <p><u>Flag 'B'</u></p>
